

2016 Graduation Ceremony Report

On Friday 17th March 2017 the ISI Group held graduation ceremonies for its four Japanese language schools that have expanded throughout Japan.

Our school started teaching Japanese language with the opening of Nagano Campus in 1992 in Ueda and now it counts with four different campuses nationwide and about 2,000 international students per year from more than 50 countries all over the world come to study Japanese with us.

This year too we helped many students on their paths towards realizing their dreams by supporting them on finding employment in excellent companies or entering top universities or graduate schools in Japan.

Thanks to your cooperation too we were able to come this far.

Under the educational philosophy of “developing global human resources” all faculty members will continue to work together.

We appreciate your continued guidance and future encouragement.
