Lama Arati <From Nepal>

Student Voice

Santear Co., Ltd. "RAKO Hananoi Hotel"

When I first started at Nagano Campus, I didn't know much Japanese and always answered with "hai" (yes) no matter what I was asked. But now I am working with customer service at a hotel. As I am explaining about the menu items, the customers kindly say, "You speak as fluent as a Japanese person." The work each day becomes very rewarding, when I receive such comments from the customers. The teachers at Nagano Campus are friendly, and they make it easy to understand. So to those of you who are planning to study here, I hope that you can jump right in... with confidence. This is a school that really supports foreign students who are thinking, "I want to study Japanese..." "I want to work in Japan".
